PROJECT EXPERIENCE

Mobile App Development Intern

3/2019 to 5/2019

Larry H. Miller Sports Entertainment Group, Salt Lake City, UT

Created mobile app using GraphQL API, REST API, and React Native to support the Utah Stars basketball team. Included statistical database of players, links to purchase tickets, and online game recaps.

Freelance

4/2019 to 7/2019

eKnowledge Solutions, Layton, UT

Create website working closely with company CEO and CFO to ensure client satisfaction and synergy with business requirements. Using React, Bootstrap, and styled components.

Web Developer

4/2019

Hiking Gear Database

Created website <https://hikingdatabase.netlify.app/>, a mobile-responsive app designed to track and organize backpacking gear. Developed back-end using Rest API with Node.js, Express, and MongoDB.

PROFESSIONAL EXPERIENCE

Web Developer

5/2020 to Present

Warrior Heart Advanced Camp, Eden, UT

Creating website to raise awareness of upcoming retreats and events, as well as generate leads for sales follow-up. Website built using React, EmailJS and CSS.

- Improved company awareness and developed a simple responsive user experience for customers.

Fulfillment Associate

11/2019 to 4/2020

Amazon, Salt Lake, UT

Responsible for warehousing and stock order duties, including the offloading of trucks, fulfilling work orders, locating stock, and packing items for shipment.

- Successfully achieved and maintained quota rapidly upon hire.

Training Associate

8/2013 to 2/2019

Autoliv, Ogden, UT

Trained new hires to understand processes and procedures within production environment. Created and delivered training classes and course material.

- Improved production on a new line by 66% using Kanban methodology.
- Recognized for excellent troubleshooting ability, certifying as Autoliv Maintenance First Responder.
